Félix Rivas

UX/UI Designer | Project Management, CSR, NFTs | CEO
@shapecreativestudio
Santiago, Santiago Metropolitan Region, Chile

Summary

As the Chief Executive Officer of Shape Creative Studio Chile, a digital transformation company, I lead a team of talented professionals who design and develop innovative solutions for our clients. I have more than 15 years of experience in the design field, specializing in interface design and user experience for mobile and web applications. I also have knowledge in front-end technologies such as HTML, CSS, Sass, JavaScript, and React, as well as design tools such as Sketch, Photoshop, After Effects, InDesign, and Final Cut Pro.

My passion is to create attractive user experiences that improve the interaction of people with the designed products, using user-centered design principles and methods. I am also interested in exploring the influence of AI and NFTs on design, and how they can create new opportunities and challenges for designers. My long-term professional goals are to continue growing in my career and develop innovative projects that contribute to improving people's lives through design.
